Govern with Confidence: 10 Key Principles for Effective Boards
## Tuesday, January 27 @ Springhill Suites, 2989 Paradise Rd., Las Vegas, Nevada

Have you ever...

- seen board members get drawn into operational details?
- seen intelligent, well-meaning people become a dysfunctional group?
- questioned how time was used at a board meeting?
- worried the board might miss something important?
- wondered why the same conversations keep recurring?
- wished boards knew how to direct and *control* -- without micromanaging?
- wanted more results, less frustration?

Luckily, there's hope.

A set of principles called Policy Governance® enables boards to do their governing job effectively. These principles let board members distinguish between governance vs. management, delegate without micromanaging, and be accountable without getting tied up in red tape. Comprised of ten principles, Policy Governance can be learned and adopted by any board wishing to take its governance -- and the company or organization it governs -- to the next level. *Govern with Confidence: 10 Key Principles for Effective Boards* is an engaging, interactive workshop presented by Brown Dog Consulting's Susan Mogensen, who is known for bringing a mix of expertise, clarity, humor, and stimulating interaction to all her sessions.

By the end of this workshop, you will know how to:

- save valuable board meeting time while getting more done
- liberate the chief executive and staff to create, innovate, achieve results
- improve the board - CEO relationship
- prevent board member frustration and burnout
- control effectively without micromanaging
- please your members, community, owners or shareholders
- ...and govern with confidence!
